Certified Health IT Product List

**Certified Health IT Product List**  
The Office of the National Coordinator for Health Information Technology

HealthIT.HHS.Gov

The Certified HIT Product List (CHPL) provides the authoritative, comprehensive listing of Complete EHRs and EHR Modules that have been tested and certified under the Temporary Certification Program maintained by the Office of the National Coordinator for Health IT (ONC). Each Complete EHR and EHR Module listed below has been certified by an ONC-Authorized Testing and Certification Body (ONC-ATCB) and reported to ONC. Only the product versions that are included on the CHPL are certified under the ONC Temporary Certification Program. Please note that the CHPL is a "snapshot" of the current list of certified products. The CHPL is updated frequently as newly certified products are reported to ONC.

Please send suggestions and comments regarding the Certified Health IT Product List (CHPL) to [ONC.certification@hhs.gov](mailto:ONC.certification@hhs.gov), with "CHPL" in the subject line.

Vendors or developers with questions about their product's listing should contact the ONC-Authorized Testing and Certification Body (ONC-ATCB) that certified their product.

**USING THE CHPL**

To determine if an EHR product or a bundle of EHR products meets meaningful use requirements, or to request a CMS reporting ID:

1. Select your practice type using the two buttons below
2. Search for EHR Products and add them to your cart
3. Check your cart to see if the product or products meet 100% of the required criteria
4. Request a CMS EHR Certification ID using the button on the Certification Cart page

Search by Criteria Met

When your cart is displayed, make note of the Certification Criteria Summary – you must have 100% of the criteria covered by products in your cart (reflecting what is in use in your organization) to be eligible for incentive payments. For example, neither of the two products selected below cover Ambulatory criterion 170.304g (1, below). If your product(s) do not support 100% of the criteria, you will not be allowed to request a CMS EHR Certification ID number, and the “Get CMS EHR Certification ID” button is not enabled (2, below).
